

For Immediate Release

September 1, 2008

Business to Business

United Networking Enterprises, Inc., a nationwide Environmental Care Management Company with higher standard introduces Biomist™ Power Sanitizing Services. For the first time in North America: A way to quickly sanitize equipment and facilities! The Biomist™ System safely power sprays a sanitizing solution of concentrated alcohols.

The need for a superior method of sanitizing facilities and equipment is clear. Uncontrolled pathogens cost America billions of dollars and tens of thousands of human lives per year.

Current sanitizing practices are costly, time-consuming, often ineffective and sometimes dangerous. The best solution? Biomist™ Power Sanitizing Services.

The Biomist™ system has been used and proven in independent laboratory testing. Biomist™ has the power to kill and protect against MRSA, Norovirus, E.coli, Salmonella, Listeria, Hepatitis B, HIV, TB and the vast majority of all other viruses and bacteria.

Get the whole story! [Watch presentation video \(21 Mb\)](#)

Through the technology of the Biomist™ Power Sanitizing System, Business to Business we are together in the pursuit of preventing deaths and saving lives.

Excellence in sanitizing always,

Gloria Killens-Hadley

President
